EXTENDED TO THE END OF THE YEAR.

Asked for One Month's Extension, Doctor McCoy Gives Two.

All Who Apply Before Jan. 1, 1898, for the Treatment that Has Become a Blessing to Our Time, May be Treated at \$3 Per Month Until Cured.

McCoy and Cowden in October doubled even that of September, and at the close of the month came again the inevitable culmination and crises a flood tide and flood pre-ture of belated importunates that brought a seconder, rigency, when "Something must

be done."

Picas for another month's extension came from everywhere, in letters from patients bring in the city who could not reach the offices, in letters from people throughout the country dearning to be treated by correspondence. In personal visitation of friends who wanted to bring other friends or relatives.

Such was the pressure of work incident to the close of the \$3 period that during Saturday and Sanday, the 36th and 31st, not so much as time for preparing or publicly amounting the extension tould be spared. It was an unprecedented occurrence in this practice. It was the first time in its history that it was absolutely in-

of be said then that there is not about cured.

Commissioners Object to Trolley Wires Supplying Light. A proposition to license all workers in electrical construction, just as the plund rs are now licensed, is being considered She had been cured of Asthma; why should not I be cured also?

Before I began treatment, if I did very by the Commissioners. Mr. Wight, who has given special attention to the subject, naturalize that the work of electrical contructors if badly done, is equally a menawith tool olumbing, and it is just a simpor tant that it should be inspected. In many instances large fires and loss of life have resulted from poor electrical construction which could have been prevented had the
